

Covid 19 Updates-

Dear parent/guardian,

In order to continue to keep both child and staff as safe as possible against Covid.

Please can I ask that if your child or anyone within your household develops any of the following Covid-19 symptoms that you do not bring your child to the setting and notify the Manager.

Your child would need a PCR test NOT a lateral flow test.

- Temperature of 37.8 or above
- A new or continuous cough
- Loss or change to your taste or sense of smell.

If anyone within your household is identified as having had close recent contact with someone who has tested positive, please follow the government guidelines, and isolate accordingly.

Please notify the setting Manager immediately. If you child develops any of the above symptoms whilst in the setting, you will be contacted to collect you child.

Your child and household would need to isolate until results of PCR test are received. Please forward these test results to manager. If a child does need to isolate the room will be cleaned and a fogging machine will be utilised in the room.

This will provide a further level of infection control against Coronavirus, on top of the extensive procedures that is already have in place in the setting.

Can I kindly ask that only one parent attends the setting when dropping off or collecting your child and that all parents wear a face covering and continue to remain at a 2-metre distance using the markings in place.

I would like to reassure you that we are taking every precaution to remain COVID-19 secure within the setting to ensure the safety of all our parents, staff, and children.

Thank you for your continued support.

Kindest Regards,

The Odds Farm Park Day Nursery and Preschool Team!

August 1st Elaine will be taking part in London landmarks half marathon to help raise money for Cancer Research.

If you would like to sponsor Elaine please use the link below

Thank you.

Odds Farm Day Nursery and Preschool

June 2021- Ocean Day

Upcoming events

Monday 21st June 2021- come dressed in your exercise outfits and join us in celebrating World Yoga Day.

In Babies we have added a home corner to the room so that the children can develop on their role play skills, using real food such as crackers, rice krispies and corn flakes to develop our sensory skills also. We enhanced our sensory quiet area with some light netting and twinkly lights where our younger babies can sit and relax and read some stories. The hot weather has also meant that we have had a lot of water play out developing on our filling and emptying skills.

Toddlers have been celebrating both Butterfly and Ocean day by creating their own butterflies, we also spoke about the butterfly cycle and how they fly. For Ocean Day we spoke about animals in the sea and then created some jelly fish and sharks. We really enjoyed looking at Ocean books.

In Preschool we have been exploring sensory play using crazy foam, dried fruit, water, sand and cereals. We have also been talking about going to school and looking at the letters in our names and counting.
